To Whomsoever It May Concern,

Subject: Application for Internship Opportunity

I am Sriyansh Raj, a third-year undergraduate student pursuing a Bachelor of Technology in Computer Science & Engineering at Vishveshwarya Group of Institutions, Greater Noida (AKTU-affiliated), with a current CGPA of 8.2. I am writing to express my strong interest in availing an internship opportunity through the National Internship Portal, Government of India, with the aim of applying my technical skills in a real-world professional environment and contributing meaningfully to organizational objectives.

I have developed a solid foundation in Python, Java, C++, SQL, and JavaScript, alongside hands-on experience in Machine Learning, Generative AI, Natural Language Processing, and Full-Stack Development. My project portfolio includes a GAN-based Image Colorization system, a Real-Time Object Detection application using YOLO and OpenCV, an NLP-based Resume Parser, and an AI-powered Fact-Checking Browser Extension leveraging LangChain and Retrieval-Augmented Generation (RAG). I have also contributed to open-source projects and completed industry-recognized certifications from Google Cloud, Deloitte (Forage), and C-DAC Noida.

I am a highly motivated and adaptable learner with a strong problem-solving mindset and a demonstrated ability to deliver scalable, practical solutions. An internship through this platform would provide me with an invaluable opportunity to deepen my technical expertise, gain exposure to industry workflows, and contribute to initiatives that create a meaningful impact.

I am fully committed to bringing my best efforts and a collaborative attitude to the organization I am placed with. I would be grateful for the opportunity to be considered and am happy to provide any additional information as required.

Yours sincerely,

Sriyansh Raj
